PATENT

IN THE UNITED STATES PATENT AND TRADEMARK OFFICE

In re Application of:

Wang et al.

Application No. 09/788,294

Filed: Feb.16, 2001

For: REFORMING CATALYSTS AND
METHODS OF ALCOHOL
STEAM REFORMING

Art Unit: 1754

Examiner: M. Medina Sanabria

Atty Docket: 12722B

RESPONSE TO RESTRICTION REQUIREMENTAssistant Commissioner for Patents
Washington, D.C. 20231

Sir:

In response to the Restriction Requirement mailed May 20, 2004, Applicants submit the following Remarks and attached Amendment.

It is not believed that extensions of time or fees for net addition of claims are required, beyond those which may otherwise be provided for in documents accompanying this paper. However, in the event that additional extensions of time are necessary, then such extensions of time are hereby petitioned under 37 CFR § 1.136(a); and any fees required for consideration of this paper and any papers associated with it (including fees for net addition of claims) are hereby authorized to be charged to Deposit Account No. 50-1749.

RESPONSE

In response to the Restriction Requirement, Applicants elect group I claims 1 and 5-33, with traverse with respect to groups II and III. Applicants admit that these groups are patentably distinct; however, the inventions are all related as they all are methods of alcohol steam reforming and each method uses a catalyst that comprises Pd. The restriction is further improper since the examination of these 3 groups would not present any additional burden. Indeed, the Examiner has indicated that all three groups are classified in class 423, subclass 648.1.

If the Examiner has any questions or would like to speak to Applicants' representative, the Examiner is encouraged to call Applicants' attorney at the number provided below.

Respectfully submitted,

Date: 26 May 2004
